media pack 2012

CTO events are of international repute and provide an integral forum for international collaboration of a diverse group of highly knowledgeable ICT speakers and stakeholders from across the Commonwealth and beyond. These include ICT Ministers, Regulators and Operators, making the event an excellent podium for strategic promotion, campaigning and networking.

The CTO invites media partners and supporting partners for joint marketing activities. These may include, but is not limited to, the press, publications, marketing/PR websites, ICT associations and not-for-profit/charity organisations.
