

Invitation

CMAI VERINT Seminar on

Regulatory Compliant Location Technologies

For Mobile Networks

9th November 2010 – Delhi @ Hotel Lalit – Barakhamba Road , Connaught Place , New Delhi - 1030 to 1300 hrs

Shri Chandra Prakash, Member (Technology) DOT has kindly consented to be Chief Guest.

AND

11th November 2010 – Mumbai @ Hotel Intercontinental (Lalit) – Near International Airport, Mumbai - 1030 to 1300 hrs

CMAI and Verint cordially invite you to join Verint's seminar to explore the different accurate location solutions in the market. Consult on-site experts on your challenges; learn more about implementing accurate location solutions on LIMS Systems and experience demos.

The Seminar would address the compliance for DOT recently introduced requirements for accurate location delivery to the LEAs by prescribing that "The Licensee shall provide in its licensed area details of its mobile customer's location up to a minimum of 50 meters in the CDR."

Highlights of the technology seminar include:

1. The various accurate location technologies, such as: Enhanced Cell ID, RF-Finger Print and U-TDOA
2. CAPEX & OPEX considerations and projected achieved accuracy of each technology in dense-urban, urban and rural areas
3. Implementing accurate location solutions on existing LIMS systems
4. Enhancing the Location Based Solution to achieve ROI from commercial applications
